His Excellency Mr. Ajit Gupte, the Indian Ambassador in Denmark - accompanied by his daughter - was a guest of MAN Diesel & Turbo in Frederikshavn on Saturday the 6th January 2018.

The visit was part of a trip with the purpose of getting inspiration from sustainable energy solutions at companies in the Municipality of Frederikshavn. We were happy to show His Excellency our Heat Recovery system that in cooperation with Frederikshavn Forsyning uses the waste energy from our Engine Test Center to heat up houses in Frederikshavn.
