The "Global South," blessed with abundant resources and a growing population of young people, is said to be the last frontier of global economic growth. The Japan-India-Africa Business Forum (organized by Nikkei Inc. and co-organized by Ministry of Economy, Trade and Industry of Japan (METI)) was recently held in Tokyo, ahead of the Ninth Tokyo International Conference on African Development (TICAD9). It brought together leaders and experts from the political and business circles of Japan and India to discuss the growth prospects of the vast economic zone that extends from India to Africa, as well as the opportunities and challenges for Japan-India business partnerships in the region. (Job titles are as of the time of the event.)
