

BRINGING BV510 ALL-TERRAIN VEHICLE TO INDIA

BAE Systems and Indian company Larsen & Toubro Limited (L&T) have partnered to bring the all-terrain vehicle, the BvS10, to the Indian market. The two companies have signed a licensing and manufacturing agreement to offer the BvS10 for the Articulated All-Terrain Vehicle (AATV) for the Indian Armed Forces.

Under the agreement, L&T is the prime for the Indian market,

with the support of BAE Systems Hägglunds, the Swedish manufacturer of the BvS10 family of vehicles. BAE Systems and L&T have upgraded the BvS10 to meet the specific requirements of the Indian Armed Forces. This new variant will be known as the BvS10-Sindhu. The AATV programme aims to deliver vehicles from L&T's Armoured Systems Complex, along with integrated logistic support (ILS).

Dutch BvS10

The BvS10's articulated mobility, provides optimal manoeuvrability across varying terrains including snow, ice, rock, sand, mud, swamps, and steep mountain environments. The vehicle's amphibious features also allow it to swim in flooded areas or coastal waters.

The BvS10 will participate in Indian Army trials starting in September.
