India drops to 85th on Passport index

India has dropped five points to 85th this year in a global passport index, topped by Singapore for the second consecutive year. The data draws from Henley Passport Index released by citizenship advisory firm Henley & Partners on Wednesday. India's ranking in the Henley Passport Index for 2024 was 80th. According to data from 2006-2025 on the firm's website, India's rank was the lowest in 2021 (90), while its best was in 2006 (71). "Surprisingly, the US is the second-biggest faller between 2015 and 2025 after Venezuela, plummeting seven places from 2nd to its current 9th position," the firm said in a statement.
