

Global RE-Invest India 2018

The Confederation of Danish Industry and the Embassy of Denmark in New Delhi hereby invite you to join the Danish Energy Business Delegation attending Global RE-Invest India 2018. The delegation will be headed by Danish Minister for Energy, Utilities and Climate, Mr. Lars Christian Lilleholt.

The notable increase in the population of India, along with the economic growth, naturally results in a strong increase in energy consumption. This challenge is met by a sustainable mindset of the Government of India, which with far reaching policy reforms has catapulted India's renewable energy market into the spotlight. India welcomes foreign expertise, technology and investment in order to meet the ambitious targets for a modern energy supply.

The Ministry of New and Renewable Energy (MNRE) is organizing Global RE-Invest India 2018 to showcase India's renewable energy potential and its effort to de-velop and scale up capacity to meet national energy requirement in a socially, economically and sustainable manne.

WHY JOIN?

With more than 10,000 domestic and foreign delegates, 600 global investors, and Ministerial-level participation from over 100 countries, Global RE-Invest 2018 is the perfect platform to position your products, services and solutions to key stakeholders in the Indian energy sector. With the attendance of the Danish Minister for Energy, Utilities and Climate increased exposure of Danish energy solutions is guaranteed.

The trip will include:

- Preparatory seminar in Denmark (March)
- Lunch briefing and workshop with local attendance on the day of arrival
- Networking opportunities with high-level local attendance at the Grand Opening Dinner at the Ambassador's residence. The Indian Union Minister, Secretary MNRE and other key stakeholders within the Indian energy industry will be invited
- Access to the Global RE-Invest conference and exhibition
- Exposure at meeting space at the Danish open space pavilion, covering app. 50 m2 (depending on the number of participating companies)
- A Danish Country Seminar with high-level local attendance, speaking opportunities and exposure of Danish energy solutions
- Match-making opportunities
- Increased exposure due to attendance of the Danish Minister for Energy, Utilities and Climate

For more information and draft conference program, find the official webpage for Global RE-Invest 2018 [here](#).
